David Zwirner is pleased to present an exhibition of new paintings by artist Lisa Yuskavage, the artist's ninth solo exhibition with the gallery and her first in Los Angeles in thirty years.

David Zwirner

About

Yuskavage is one of the most original and influential artists of the past three decades, she creates works that affirm the singularity of the medium of painting while challenging conventional understandings of genres and viewership. Her rich cast of characters and their varied attributes are layered within compositions built of both representational and abstract elements in which color and light are the primary vehicles of meaning.
